

DIGITAL WATER VELOCITY METER

Model : FP101 / FP201

A. Features :

The flow Probe is a highly accurate water velocity instrument for measuring flow in open channels and partially filled pipes.

B. Specifications :

		FP101	FP201
Display	Measuring Range	0.3 ~ 25 FPS (0.1 ~ 8 m/sec.)	
	Accuracy	0.1 FPS	
	Averaging	True digital running average. Reading taken once per seconds	
	Display	LCD (Digital)	
Sensor Probe	Size	3' ~ 6'	5' ~ 15'
	Sensor Type	Protected turbo-Probe Propeller with electro-magnetic pickup	
	Weight	2 pounds 1 - pounds shipping weight)	
	Sensor Housing	2" diameter x 3" long
